We Deliver Free in the United States by Parcel Post or Express To any and possessions by Parcel Post or Express Exp. Office at Our Option

All Vegetable and Flower Seeds by the Packet, Ounce and 1/4-Pound.

Purchasers Pay Transportation on Half-Pounds, Pounds, Quarts, Half-Pecks, Pecks and Bushels. Also on Bulbs, Requisites, Fertilizers and Insecticides. If wanted by Parcel Post add postage as noted for these.

BEANS, PEAS AND CORN WEIGH (POSTAL WEIGHT) TWO POUNDS PER QUART.

PARCEL POST AND EXPRESS.

On shipments weighing 20 pounds or more it is cheaper to ship by express. As the express companies give a receipt for each package, and are responsible, it amounts practically to insurance without cost, whereas it costs extra, accord-ing to value, to insure a parcel post package. We guarantee the safe arrival in the U. S. of all goods shipped by express. IF GOODS ARE WANTED BY PARCEL POST, POSTAGE MUST BE

ADDED AS PER TABLE BELOW, EXCEPT FOR THOSE

OUANTITIES OF SEEDS WE OFFER TO DELIVER

FREE.

The Postal Weight of Beans, Peas and Corn is Two Pounds per Quart.

The Postal Weight of Beans, Peas and Corn is Two Pounds per Quart. For other merchandise mailable by Parcel Post offered in this catalogue— Odorless Fertilizers, Insecticides and Fungicides (Fluids and Poisons excluded) —we have given the packed weight so that extra for postage may be remitted according to Zone distances as below. —WEIGHT LIMIT—The weight limit within the 1st and 2nd Zones is fifty (50) pounds, within the other Zones the weight limit is twenty (20) pounds and the size limit eighty-four (84) inches for combined length and largest girth. In this catalogue we give the weight packed up to ten (10) pounds on Insecticides and Fertilizers. and Fertilizers.

BUSINESS RULES AND PROCEDURE

PRICES IN THIS CATALOGUE CANCEL ALL PRICE LISTS PREVIOUSLY ISSUED BY US.

THE PRICES QUOTED HEREIN ARE SUBJECT TO ADVANCE WITHOUT NOTICE.

We Do Not Supply Dealers, therefore our seeds, etc., can only be procured by sending orders direct to us

ALL GOODS IN THIS CATALOGUE are offered subject to being unsold on receipt of order, and the prices quoted are subject to change without notice

ADVANCE ORDERS, CONDITIONS OF ACCEPTANCE. All advance orders, for growing crops, are booked by us previous to harvesting and receipt —subject to crops permitting—and accidents or delays beyond our control. Should shortages necessitate it, we reserve the right to fill such orders pro rata.

WE WILL SUPPLY half a pound at pound rates; half pecks at peck rates; bushels at bushel rates. 6 bulbs of one variety at the dozen rate, 25 at half bushels at bushel rates. 6 b the 100 rate, 250 at the 1000 rate.

THE PRICES QUOTED IN THIS CATALOGUE ARE NET, except we furnish Market Gardeners and Florists for their own planting, our retail packets of Vegetable and Florists for their own planting, our retail packets are priced net. We offer no premiums, discounts nor gratuities.

REMITTANCES should be made by Express Money Order, P. O. Money Order, Bank Draft or Registered Letter. We must decline sending goods C. O.D. unless 25% of their value accompanies the order.

ACCOUNTS—Parties having no account with us—who order goods with-out remittance—must furnish satisfactory reference. New York City reference preferred on account of the shorter delay pending investigation.

WE FORWARD AS CUSTOMER DIRECTS by express, freight, steamer or mail. When no shipping instructions are given we send according to our judgment. Some seeds, etc., we deliver free in the U. S., but on other seeds and goods purchaser pays, or allows, transportation charges when prepaid (see details at top of this page.)

WE MAKE NO CHARGE FOR SHIPPING AND CARTING of goods to any railroad station, steamship line or express office in New York City proper.

WE MAKE NO CHARGE FOR PACKING cases, baskets, packages or barrels except special packing for foreign shipments as tin-lined cases, double sacks, etc., then we charge cost. Cloth bags we charge for, viz.: 1 peck, 15c.; ½ bushel, 20c.; 1 bushel, 35c.; 2 bushels, 45c. All Grass seed bags are furnished free excepting for Timothy and Clover.

WE GUARANTEE THE SAFE ARRIVAL in United States of all goods forwarded by expres

WHEN SHIPPED BY FREIGHT WE DELIVER ALL BULBS, ROOTS, etc., in good condition, into the hands of transportation companies, but our re-sponsibility ceases there. Consignee then assumes all risks heating, freezing and delays.

CANADIAN ORDERS-Regarding shipment of Seeds, etc., into Canada, see Red Slip inserted with Order Blank, in this Catalogue.

WE CANNOT GUARANTEE THE WELL-DOING of any seeds, roots or bulbs we send out .--- therefore :

PETER HENDERSON & CO. give no warranty, express or implied as to description, quality, productiveness, or any other matter of any seeds, bulbs plants or roots they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

TESTIMONIALS FROM CUSTOMERS—We are always pleased to hear from our customers regarding results. We appreciate the thousands of unsolicited testimonials we receive annually and are glad to publish as many as space will permit. Photographs of gardens and particu-larly of individual vegetables, flowers or fruits are always very gladly received by us received by us

HENDERSON'S SPECIALTIES IN HENDERSON'S SPECIALTIES IN HENDERS

THIS LIST CANCELS ALL PREVIOUS OFFERS NOT ACCEPTED.

IMPORTANT NOTICE.—The prices herein quoted on vegetable seeds are based on customers paying delivery charges when sent either by express or freight but here is a plan whereby it rests with you whether WE pay the freight or YOU. If you send the order to us direct WE WILL on purchases of vegetable seeds from this list to the value of \$10.00 and upwards, DELIVER FREE by freight or express, at our option, to any railroad station in the United States, PROVIDED, that at least half of the order is composed of small seeds—that is, any vegetable seeds in the list other than Peas, Beans, Corn, Onion Sets and Potatoes. If your own order does not amount to \$10.00 you can avail yourself of this offer by combining your order with one or more of your neighbors. (Prices in this list subject to change without notice.)

Change without notice.) **WHEN SEEDS ARE DESIRED BY MAIL,** Postage must be added at the ZoneRate. Peas, Beans, and Corn weigh 2 lbs. per quart (*postal weight*.) See table of Zones and Rates on page 2 of cover. Packets, ounces and quarter pounds are mailed free. Half pounds will be supplied at pound rates; half pecks at peck rates; half bushels at bushel rates. We will allow 25% on seeds purchased by the packet from our retail catalogue. Where prices are not quoted on items in this catalogue they may be had on application.

CROSBY'S EGYPTIAN BEET.

One of the best for the first open ground crop. The tops are medium in size, the root round and slightly flattened. The flesh is strongly marked in two shades of red. It bunches well, and is of good quality. This variety produces a proportion of pale fleshed roots. These have lighter colored tops and so may be easily taken out when thinning. (See engraving.) Price, 25c. oz., 85c. $\frac{1}{4}$ lb., \$3.00 lb.

EGYPTIAN BEET.

A standard extra early sort and one of the very best for the early crop. The roots are round and flattened, of good size and deep crimson in color. The tops are unusually small, making it a good bunching sort. It should be marketed as soon as ready, as it is liable to become woody if left too long. Our stock is specially selected and of fine shape and color. Price, 20c. oz., 70c. $\frac{1}{4}$ lb., \$2.50 lb.

HENDERSON'S SELECTION OF

GARDEN BEETS FOR MARKET GARDENERS.

DETROIT DARK RED BEET.

We have an excellent selection of this well known variety, which has become so popular among market gardeners.

Its great value lies in its remarkable uniformity in size and color, which shows to great advantage when marketed in the basket. It is sometimes used for bunching, but sells best when used as a basket beet. It is one of the best for fall crop, or to store for the winter market.

The outer color is dark, the roots are smooth, and very uniform in shape. The flesh is of good color and of excellent quality. The tops are medium in size, rather dark in color, and the whole plant quite vigorous. (See engraving.) Price, 25c. oz., 85c. $\frac{1}{4}$ lb., \$3.00 lb.

"We got first prize for Egyptian Beets this year. The Judge said they were the finest and truest to type he had seen for many a day." H. N. ARNOLD, Calais, Me.

HENDERSON'S Early Jersey Wakefield.

The Best First-Early Pointed-Head Cabbage. This Cabbage, though introduced years ago by the late Peter Henderson, still holds its undisputed lead as the best extra-early first-early Cabbages combined. It is good, old reliable; and may be depended upon for uniformity in earliness and crop. The head is large enough for so early a variety and the small outside leaves enable it to be planted closely; the heads are pyramidal in shape, having a blunted or rounded peak. It is beyond question shape, having a blunted or rounded peak. It is beyond question the best variety for spring and early summer in the private garden. Its first appearance brings a welcome change from the hard-headed winter sorts, for Early Jersey Wakefield is attractive in appearance and essentially good in quality. It has a delicacy of flavor rarely associated with Cabbage, and properly cooked may be made one of the most palatable and appetizing dishes, and worthy of a place on any table. (See engraving.) Price, 60c. oz., \$2.20 ½ lb., \$8.00 lb.

"Lester Bros. of Des Moines, Iowa, had the best Cabbage for summer use grown from your seed that I ever saw. Look up their last year's orders, and send me the same amount and kind of Cabbage they ordered of you last year. I want some of the same kind of seed (it was Early Jersey Wakefield)." JAMES HETHERSHOW, Des Moines, Iowa.

"Think your seeds the best we ever planted. Our Cabbage last year was splendid, all headed fine which surprised us, as we were told that the seasons were so short here that we would not have any Cabbage at all. We were pleased to sell Cabbage to the same ones who said it." Mrs. GRACE JENSEN, Island Pond, Vt.

"Had Peter Henderson done nothing else but introduce the Early Wakefield Cabbage, it would be a lasting monument to his name. No better variety is in cultivation to-day among the early kinds."—COUNTRY GENTLEMAN.

HENDERSON'S EARLY SPRING CABBAGE.

The Only Extra Early Round Flat-Headed Cabbage. Every head is uniform as if moulded, and remarkably solid even when young. Few and small outside leaves. Small veins. Fine texture and delicate flavor.

Its great value lies in its being a First Early Flat Cabbage, a type much preferred to pointed heads by many people. It is of the Early Summer type, about one-fifth smaller and has only four to five outside leaves and these so small that it may be planted 21 inches apart, 13,500 to the acre. Remembering that this is a first early flat variety, the shape that is really popular on all markets and that it is ready fully a week earlier than any sort like it. Its value can be readily appreciated. The stem is short, making almost the whole plant edible. It is finely bred, the veining of the leaves being particularly fine. There is no Cabbage we know of having a more solid head; it has also the peculiarity of heading firmly at an early stage in its growth, so that the finest Cabbage, though small, can be obtained long

before it has attained its mature size. Its shape and large yield per acre make it particularly valuable for truckers, and its good quality will render it the finest early Cabbage for private gardens. (See engraving.) Price, 35c. oz., \$1.25 \frac{1}{4} lb., \$4.50 lb.

"I tried your Early Spring Cabbage last year, and I think it deserves a better recommendation than you give it in your catalogue.

D. J. DARKES. Fredericksburg, Pa.

"I tried Henderson's Early Spring this year for the first time and I must say it fills a place we have so iong wanted a Cabbage for. The leaves are so small you can plant it 18 inches apart. The head is very early, very hard, and small to medium in size, and is ideal for the housewife. It grows here about 2 pounds in size and we get 10 cents per head for it." DR. E. A. LEE, Jennings, Louisiana.

For Complete List of Cabbages, Early and Late, see pages 12 & 13.

Henderson's Selected Late Flat Dutch Cabbage.

One of the Oldest Sorts Grown - Large Round Solid Head .- An Excellent Keeper.

This strain of late Cabbage has been grown by us for many years, and is now recognized as the standard of its type. Under all conditions, both in private and commercial gardens, it has been the one variety mainly relied on for late fall and winter use for over half a century.

A description seems unnecessary, when most of our patrons know it so well. It is just a good Cabbage in every respect. Grows easily, cooks easily, tastes good, and will for many years to come be highly esteemed.

Our stock is just as good as ever and we are sure it will please.

Price, 60c. oz., \$2.20 1/4 1b., \$8.00 lb.

HELP YOURSELF AND HELP US by mailing your orders in January or February. Avoid possible delay due to overtaxed transportation facilities.

HENDERSON'S SUCCESSION CABBAGE.

THE MOST DEPENDABLE CABBAGE GROWN.

Beyond doubt Henderson's Succession is the best Cabbage of its class; it is not too much to say that it is the best all around variety in existence. Given ordinary conditions, it may be absolutely relied on to produce larger, better, and more salable heads than any other sort. The heads are enormous in size, extremely solid, remarkably uniform in shape, and none sells better. It grows well either in spring, summer or fall, and its table quality is unsurpassed. We introduced this variety in 1888, and its appearance attracted instant attention. Since then there have been many attempts at imitating it, but the enormous increase of our sales, and the periodically unsatisfied demand for our stock, gives testimony to the acknowledged superiority of Henderson's Succession over all would-be competitors.

(See engraving.) Price, 60c. oz., \$2.20 1/4 lb., \$8.00 lb.

DANISH BALL-HEAD or HOLLAND CABBAGE. HENDERSON'S SUPERIOR STRAIN

When this type of Cabbage first appeared we foresaw its popularity, and took pains to secure samples of the various types. After exhaustive trials we decided to grow from one strain only, and the success that has come to all who have grown it, proves the wisdom of our selection. The plant is strong, erect, stands well, and heads up evenly. The trimmed head is almost round, and has more weight for its size than any other sort. Price, 60c. oz., $$2.20 \frac{1}{4}$ lb., \$8.00 lb.

"I harvested twenty-six tons per acre of Henderson's Danish Ball Head Cabbage from seed purchased of you. Two years ago I did not have quite enough plants from your seeds, and I purchased some plants of others with the result that I had a lot of cabbage, not Danish, that would not keep. I have used your seeds for twelve years and would not change." Mar. 16, CHAS. E. ROGERS, Middleboro, Mass.

A MONEY MAKER FOR THE TRUCKER.

Henderson's Succession Cabbage elicits praise wherever grown.

"I used your cabbage seed for the first time last year. The Succession Cabbage were simply great, hundreds of heads weighing 15 and 20 pounds, and one that I petted a little for show purposes weighed 29¹/₄ pounds." February 2, B. H. DORWIN, Bainbridge, N. Y.

"I used to grow your Succession Cabbage years ago in Georgia and have never found anything here as good, so I am ordering some."

July 27, A. S. DENHAM, St. Augustine, Fla.

"Henderson's Succession Cabbage Seed I find is the best variety I have ever planted." A. J. HAWSEY, Clinton, Ia.

"Enclosed you will find photos of my field of Henderson's Succession Cabbage. They are particularly good this year, and I have the biggest crop I ever raised." October 15, GUS A. MORTON, Williston, Fla.

"Henderson's Succession Cabbage is the finest in the world. I raised one that weighed 27 lbs. cut off at the ground. All other seeds I purchased from you gave perfect salisfaction." G. W. PHILLIPS, West Monroe, La.

"The year before we had a beautiful lot of Henderson's Succession Cabbage. and took first prize at the exhibition. Some of the heads were immense," Jan. 18, H. N. ARNOLD, Calais Me.

"I was very successful with Henderson's Succession Cabbage. It is a great test for any Cabbage to grow them and get every one to a firm head as I have done. Feb. 2, WALTER E. JACKES, Chatswood, N.S.W.

"Henderson's Succession Cabbage has proved to be an unqualified success and has elicited high praise from everyone who has seen it." June 14, ALEXANDER W. BALL, Texarkana, Tex.

.....

NOTE. ____This peerless variety is so well known and so much sought after, that many firms are offering a "SUCCESSION" CABBAGE. We have tested many of these and find some entirely untrue and others of Inferior strain. Be sure to get our highly bred and selected, genuine type, which is procurable only direct from us. __PETER HENDERSON & CO.

HENDERSON'S EASY-BLANCHING CELERY.

A Distinct and Valuable New Celery. The Quickest and Easiest to Blanch. Makes a Most Attractive Bunch. Thick Solid Stalks of Perfect Quality.

(Also illustrated in colors on the back cover of this Catalogue.)

This splendid Celery was named and introduced by us. The original stock has been improved under our watchful care and now it is as near perfection as nature can make it. Many of the vegetables introduced and named by us have achieved a world wide reputation and are the recognized standards of merit. This Celery we feel certain will take rank with the best of our introductions.

We offered it for the first time five years ago, claiming that it would prove to be the pioneer of a new class. We were so sure of its blanching value that we gave it the name of Easy-Blanching.

Further experience not only confirms our opinion that it is the quickest and easiest Celery to blanch for early market, but has also convinced us that it keeps better in the trench than any other, while the amount of work required to fit it for putting away is less than is needed for the standard sorts. This means that Easy-Blanching has the most valuable characteristics of the two classes of Celery, with none of their defects, having perfect blanching character without weakness, and good keeping quality after trenching.

In the field the plant looks like Golden Dwarf; the only apparent difference is a slight yellow tinge, which shows in the small but dense crumpling of the leaves. It is not strictly **self** blanching, for if left to grow naturally it remains green. It is only when the blanching process is begun that its "Easy-Blanching" quality becomes apparent.

THE METHOD OF BLANCHING is just the same as for ordinary sorts. When ready to market it has a most attractive appearance, mainly because of the large, full colored heart. After blanching it remains longer in good condition, thus enabling the grower to market it at his convenience.

TO PREPARE IT FOR TRENCHING, all the work needed is to throw a little soil up to the row, just enough to give the stalks an upright growth, and not enough to start blanching. It should be put away as late as possible. Treated thus, it keeps better, and comes out of the trench with less rot and in bettercondition than any standard Winter sort.

There are some areas in the vicinity of New York that formerly produced good crops of Self-Blanching Celery, but in late years have failed to do so on account of the land becoming worn out, or "Celery sick." On such land as this, Easy-Blanching Celery has been grown with remarkable success, producing just as good crops as ever, while right alongside, the Self-Blanching sorts have failed almost completely.

Price, 20c. pkt., 3 pkts., 50c., \$2.25 oz., \$8.00 1 lb., \$30.00 per lb.

Our Seeds are no longer supplied through Dealers. Our Object : By only supplying the Planter direct we protect many customers who have had other seeds foisted upon them as "Henderson's"

Market Growers in All Parts of the United States Give Enthusiastic Praise to HENDERSON'S EASY-BLANCHING CELERY.

"I have never kept Easy Blanching Celery later than Christmas. It kept so well up to Christmas this year for me that I am sure that the same planting of Celery would have kept until the middle of January. This was my first Celery planted and I don't see any reason why Easy Blanching Cetery would not keep as long as any other Celery if it were planted as late as we plant our late keeping PAUL. W. GOSSLER, Celery.' Jan. 2, 1917.

Bustleton, Pa.

"Beg to advise that I have received the Cetery seed all O K and also wish to state that I have tried three different stocks of Easy Blanching Celery last year and found your Clery to be the best of the three.

"The Celery that we ran in Celery boards to blanch could not be any nicer. In fact better than we ever raised before. I have some of your Easy Blanching in the trenches now and it is in good condition. Has not started to decay yet." JAMES DAVIES, Kingston, Pa. March 5, 1917.

"I would state that this Fal. I trenched some fifty thousand plants of your Easy Blanching variety of Cetery and did not lose an appreciable quantity. I grew the plants six inches apart in the row, in rows 20 inches apart, heavily mulched with manure and under the Skinner System of irrigation. Under this culture the plants covered the ground solidly by Fall and the hearts had already become well blanched, large and tender. This allowed us, by trenching a little early, to sell large, well blanched stalks a week before Christmas and yet what was trenched nearer the time of dangerous frosts was in first class condition Feb. 1st.

I have stocked up with the seed in order to satisfy, during the coming year, the steady and growing demand that I found myself unable to cope with this year. HOWARD E. INGHAM, Jennings Rd., Cleveland, O. Feb. 3, 1917.

A PRIVATE GARDENER ADDS HIS TESTIMONY

"I took first prize at the Tarrytown Horticultural Society's Show this year, for my exhibit of Celery. It was grown from seed of Henderson's Easy-Blanching Celery. The show at Tarrytown is considered the finest along the Hudson river and although the best gardeners are employed in this section not one of them could tell what kind it was, but they all took to it at once. It is a clean short, stocky Celery and grown to the height of 18 inches. It has a good solid heart, not a particle of rust, a good nutty flavor, and is as brittle as a pipe stem. I am digging this Celery now and by the looks of things, will be digging some of it next April, 1918." CHARLES L. FISHER, Supt.,

December 5, 1917.

Estate of H. E. Rogers, Esq. Briarcliff Manor, N. Y.

GOLDEN SELF-BLANCHING CELERY.

THE STANDARD EARLY YELLOW SORT.

This variety is still the most popular self-blanching sort. It is grown in enormous quantities and over so wide an area that it is on sale almost every day of the year in all the large eastern markets. We supply market gardeners all over the country and our stock has given universal satisfaction as the testimonials printed below will indicate. It is very scarce again this season, but, notwithstanding its high price, our customers will find our seed cheaper in the end than low priced stocks. (See engraving.) Price, \$1.50 oz., \$4.50 1/4 lb., \$16.00 lb.

You may be interested to know that in our whole 1915 crop of fifteen carloads taken from ten acres of land we were not able to find enough sports, seeders or hollow stalks to fill one crate, and that the fields had not been roughed during the Summer. We would be most pleased if you could furnish us with seed from the same lot that our last year's order was taken from. WHITE, WARE & WHITE, Batavia, N. Y.

My neighbor on market begs me to get for him the same Celery seed (Golden Self Blanching) I had last year. It is true my Celery was the best on market last year. ADOLF KNOCK, Lockland, Ohio.

The Golden Self Blanching Celery I got from you last fall was the best I ever had. T. DRENTH, Route 1, Ridgewood, N. J.

We have had good success with your Golden Self Blanching Celery last year. All the seeds we had from you were very satisfactory.

G. T. LOGAN, Box 628, Reno, Nevada.

"I am glad to give you my experience in regard to the keeping quality of the Easy Blanching Celery. Last year it was perfect and kept until long after the holidays in fact as late as March. This year, owing to local conditions, it is short, but very crisp and sweet, and in good condition. It is the best and easiest growing Celery I ever used." Mrs. J. L. REIFSNIDER, Dec. 3, 1917. Terrace Hill, Westminster, Md.

A FEW WORDS BY ONE OF OUR TRAVELLERS

"In regard to Easy Blanching Celery sold here (Erie, Pa.) last season same ha given the gardeners perfect satisfaction and keeps very well with them but on account of bad weather it has not grown as large and as heavy as in the previous year. I have seen some of this while they were getting same ready for market and was mysel surprised as to its keeping quality. It is fine, has a good heart and very fine flavor Jan. 20, 1917.

"I herewith enclose photo of Easy Blanching Celery raised by John Sager of Orchard Park, N. Y., which speaks for itself. This bunch of 12 stalks trimmed for market weighed 23 lbs. and weighed in the rough 40 lbs. He claims it is the best keeping Celery there is except the green varie.y Winter Queen. He marketed his last Easy Blanching Celery last week and said it was even better than when he pilled it.' Feb. 10, 1917.

"A few words in regard to Easy Blanching Celery. Mr. L. Weber of Gardenville, N. Y: has had this variety for the last two years and again orders it this year. He says that its keeping quality for the last two years has been excellent and he has kept it as late as the middle of March and at that time was just as good as what he marketed before the holidays."

Jan. 6, 1917.

For Complete List of Celeries see page 13. Our Leaflet on Celery Culture sent free if asked for when ordering.

HENDERSON'S SNOWBALL CAULIFLOWER IS GROWN IN EVERY STATE OF THE UNION IT COMMANDS HIGHEST PRICES IT PRODUCES A HEAVIER CROP PER ACRE IS MORE RELIABLE THAN ANY

HENDERSON'S SNOWBALL CAULIFLOWER.

No seed crop is grown with greater care than Henderson's Snowball Cauliflower. The result has been just as satisfactory to us as to our customers, as during our entire experience, it has never failed to come up to its high standard, nor have we ever received a well-founded complaint regarding the quality of the stock. On the contrary, we are continually receiving letters testifying to its general excellence.

The constant and ever increasing demand for our own genuine stock, coming from the largest and most successful growers clearly demonstrates its superiority over all others. (See engrav-(ng). Price, \$3.50 oz., \$12.50 $\frac{1}{4}$ lb., \$50.00 lb.

EXTRA EARLY DWARF ERFURT CAULIFLOWER

Henderson's Superb Strain.

While the famous Henderson's Snowball is beyond any question the finest sort for general use and especially for frame culture, we strongly recommend our wonderfully fine strain of Extra Early Dwarf Erfurt, which is one of the very best varieties for field cultivation, especially for late crops.

It heads with great certainty, and under ordinary conditions produces large, deep and very solid white "flowers." The plant is large, sturdy and robust in growth, with short broad leaves which furnish ample protection to the "flower." This is of the finest quality, always clear, free from ingrowing leaves, with even surface and attractive appearance when trimmed. Price, \$2.75 oz., \$10.00 ½ lb., \$40.00 lb.

IT HEADS WHERE OTHERS FAIL.

If you had the time and we had the space We could quote thousands of letters similar to the following:

" I enclose a photo of a head of Henderson's Snowball Cauliflower which weighed 4 pounds. I have tried five varieties of Cauliflower and find none that compares with yours. The heads are so much whiter, harder, and more perfect in form than others. Besides, it has not got a granulated surface like many others, and is much earlier in maturing."

DR. E. A. LEE. Jennings, La.

"Four ounces of your Snowball Cauliflower seeds produced over 400 baskets of flowers, which sold at \$4.50 per basket."

A. D. KEY. Sanford, Fla.

"The Cauliflower we raised from Henderson's Snowball seed were the largest we ever grew, being 14 and 15 inches in diameter and weighing 7, 8 and 9 pounds." H. HOSSBEIN, Kirkville, N. Y.

"In fairness to you, think it no more than right to tell you your seeds proved excellent. My Cauliflower causes many inquiries as to where I purchased the seeds." C. J. WILLETT, Orchard Park, N. Y

"I certainly appreciate the seeds I get from you, they are fine. Last year I had a number of the Snowball Cauliflower that weighed from 4 to 51 pounds each." A. S. MOREY, Box 515, Port Alleghany, Pa.

" I may say that your Snowball Cauliflower seed came up in five days with 98 per cent. germinating."

GEO. M. DICKSON, Leominster, Mass.

"My patch of Henderson's Snowball Cauliflower averaged over 5 lbs. each." J. E. THRIFT, Bristow, Okla.

BEWARE OF IMITATIONS. We have always controlled Henderson's Snowball Cauliflower, any statement to the contrary notwithstanding and unless the seed is bought directly from us you do not get the genuine, as we do not supply it to dealers

HENDERSON'S TESTED SEEDS FOR MARKET GARDENERS

The "Henderson" White Spine Cucumber. PERFECT SHAPE-NOT A BASKET OF CULLS IN A CARLOAD OF FRUIT

For many years this has proven to be the most reliable of all the White Spine types. It is extremely early, and produces an enormous crop of uniformly large and symmetrical fruits. It runs very close to type, bearing practically no misshapen fruits or culls. It is the ideal for slicing, the flesh being compact, finegrained, sparkling white and of most refreshing and delightful flavor. None excels it in vigor of vine, it not only sets, but matures a heavier crop of perfectly shaped fruits than any other variety. None equals it in color, and none holds the color better. It is grown and shipped in greater quantities than any sort on the market, and always sells at top prices. (See engraving.) Price, 15c. oz., 45c. $\frac{1}{4}$ lb., \$1.50 lb. (25 lb. lots, \$1.40.)

PRAISE FOR HENDERSON'S WHITE SPINE.

"Henderson's While Spine Cucumber is certainly fine. Last year in particular I had an immense crop which I sold to good advantage." March 20, 1917. R. BAERMAN, Rushford, Minn.

"I might say that we got first prize on Henderson's Early White Spine Cucumber ber and also on Henderson's Egyptian Beets. The judge said that both were the finest and the truest to their type he had seen in many a day." Jan. 18, 1916. H. N. ARNOLD, Calais, Me.

H. N. ARNOLD, Calais, Me. "Henderson's While Spine Cucumber is certainly fine. Some weighed as much as two pounds each and were perfect in shape." Oct. 25, 1917.

PRAISE FOR HENDERSON'S WHITE SPINE.

"Henderson's White Spine Cucumber is the best both in color and productiveness I have ever grown. I am a truck grower of twenty years standing." THOMAS FUNNELL, Middletown, N.Y.

"Please mail me one pound of The Henderson's While Spine Cucumber seed. There is not a basket of culls in a carload." LEOPOLD BAYHI, Naomi, La. "I have used Henderson's White Spine Cucumber seed for several years, and

⁴I have used Henderson's White Spine Cucumber seed for several years, and find at superior in productiveness and color to all other kinds planted in this section. I will want forty pounds again this year." W. H. RICKEY, Leesburg, Fla. "The seeds procured from you proved a great success. Henderson's White Spine

"The seeds procured from you proved a great success. Henderson's While Spine Cucumbers being especially profilable." D. C. PUGH, Occoquan, Va.

DAVIS PERFECT CUCUMBER.

A very well bred selection of the White Spine class, chiefly distinguished by the long, slim character of the fruits, a shape that is coming into favor on account of its adaptability for slicing. It has excellent color and the flesh is remarkably crisp and delicate in flavor. The vines have the strength and vigor characteristic of the White Spine type, which ensures a good crop. (See engraving.) Price, 15c. oz., 35c. $\frac{1}{4}$ lb., \$1.25 lb.

"The Davis Perfect Cucumber seed I bought from you gave great satisfaction. The shape was perfect and the crop was astonishingly large." March 5, 1917. Mr. HARRY E. HAIGLEY, Twining City, N.C.

FOR COMPLETE LIST OF CELERIES SEE PAGE 13. FOR CUCUMBERS SEE PAGE 15.

PETER HENDERSON & CO., NEW YORK-WHOLESALE CATALOGUE.

HENDERSON'S **Big Boston** LETTUCE

More Extensively Grown Than Any Other HeadLettuce.

Wherever head lettuce is sold, the demand for Big Boston is imperative and insistent. This demand is satisfied only with

> **HENDERSON'S** BIG BOSTON.

The combined acreage devoted to all varieties of head Lettuce is about one-half of that required to supply the markets of the U. S. with Henderson's Big Boston Lettuce.

Very many of the most successful greenhouse gardeners use it for an indoor crop, where, slowly and gently forced in a moderate temperature, it makes perfect heads. For spring and early summer crops in the open ground, it always brings a good crop, and in the fall it is used to the prac-tical exclusion of all other sorts, mainly because it is un-harmed by the early light frosts of autumn.

In the vicinity of the large eastern cities, hundreds of acres of this variety may be seen quite late in November growing freely and vigorously under a covering of salt From this protection the plants emerge fresh marsh hay. and bright.

It is probably the heaviest Lettuce of its size. The heart leaves are numerous, closely packed round a short stem, and of tender and delicate quality. The outer leaves are large, and being of great substance, perfectly protect the heart when shipping. (See engraving.) Price, 20c. oz., 50c. 1/4 lb., \$1.50 lb., 10 lbs. and upwards \$1.40 lb.

Whipple Bros., Beaufort, S. C., "We grew the past season from your Big Boston Lettuce seed 7200 baskets from six acres of as fine Lettuce as was ever grown." Manton Hall, Fulton, N. Y., "I send a picture of my Let-tuce field grown from your Big Boston Lettuce seed. This field paid us better than one-thousand dollars an acre." Willey's Farm, East Patchogue, L. I. "From 10 rows Henderson Big Boston Lettuce 600 feet long, we cut over 6000 heads of the best Lettuce we ever grew." Jos. Rockfeller, Shreveport, La., "Your Big Boston Lettuce will do without further improvement."

FOR OUR COMPLETE LIST OF LETTUCES, SEE PAGE 16.

Grand Rapids Lettuce.

Grand Rapids is perhaps more largely grown than any other variety, pecially in the western states. It is invaluable for forcing, where especially in the western states.

owing to its habit of growth, all its leaves are carried well above the soil, which enables it to resist rust and rot better than any other sort. It succeeds well under glass. It is grown in enormous quantities in open ground, and is used throughout the growing season with profitable results. We have results. been exceedingly careful to secure only the best stock, which is remarkable in its uniformity. (See engraving.) Price, 15c. oz., 50c. 1/4 lb., \$1.50 lb.

Henderson's Genuine Southport Globe Onions.

Are Perfect Globe-Shaped. Large, Heavy and Solid. Enormous Yielders. **Keeping** Qualities Unsurpassed.

Southport Globe Onions have been grown by the same families in Connecticut for a long period of years. The constancy of the type may readily be understood when we state that one of our growers has supplied us with the same identical strains for over forty years.

These stocks produce crops so superior to those raised from western seed that they are beyond comparison. This distinction has been maintained so constantly, and over so long a period, that we have entirely discarded the use of western seed in these sorts.

These Onions require no description. The cut exactly in-

dicates the shape. We need only add that the red is more strongly flavored-the white the mildest.

In the test affecting keeping quality, the Connecticut grown Southport Globe Onions are supreme. Years of careful selection in which all doubtful bulbs have been rejected, have had a permanent effect, and they are today beyond doubt the best of all keeping onions. (See engraving.)

PRICES OF GENUINE CONNECTICUT-GROWN SOUTHPORT GLOBE ONION SEED.	Oz.	¼ lb.	Lb.
SOUTHPORT WHITE GLOBE		\$2.20	\$8.00
SOUTHPORT RED GLOBE		1.60	6.00

YELLOW GLOBE DANVERS

ENDERSON'S SOUTHPORT GLOBE

Your Southport Yellow Globe Onions were very good last year. Commission men thought they were Prize-takers in size. Largest Globe we have ever seen in this section. WM. F. McCLOUD,

We have the finest field of Southport Onions around here from your seeds. MRS. ROBIN FORREST, Pullman, Mich

Globe Onions I got 1000 bushels to the acre of your Commission Southport Yellow and Red Globe Onions, lakers in size. the finest I ever grew. I took first prize seen in this on both yellow and red Onions at the Minne-OUD, sola State Fair held here this September. Pueblo, Colo. Also the first prize for the best collection of of Southport twenty varieties of wegelables. I won prizes rseeds. JOHN A. GANTZER, Merriam Park, Minn.

Henderson's Superior Yellow Globe Danvers Onion. A STANDARD VARIETY EVERYWHERE.

There are many types of this Onion on the market which vary greatly in shape. We have for many years kept to the old type, which, but for a slight depression from neck to root, is almost a perfect sphere. The skin is a rich shining brownish yellow. Its keeping qualities are excellent. It is free from neck, very solid, and a fine keeper. (See engraving.) Price, 45c. oz., \$1.60 1/4 lb., \$6.00 lb.

"I want you to reserve me at least ten pounds of the same lot of Yellow Globe Dancers Onions as you sent me last spring. I am an old onion grouer, but never same such fine results from any crop before." O. H. BENNETT, Chicago, Ill.

ENDERSON'S SUPERIOR Vethersfield Onion. LARGE RED UNIVERSALLY POPULAR.

A Leading Variety in All Sections. Produces Enormous Crops of Large Onions, Solid, Heavy and Perfect.

We sell a very fine stock of this admirable onion, true to shape, of good size and very fine dark red color. It will be found quite free from extra flat or pale colored bulbs. Price, 40c. oz., \$1.40 1/4 lb., \$5.00 lb. For complete list of Onions see page 18

intense dark red. SAVOY VARIETY. The quality and flavor of this crumpled-leaf Cabbage is very superior; grown in fall and allowed to be touched by frost it is sweet, and most American Drumhead Savoy. The largest heading Savoy; a general favorite for both ARROT.
Carentan. (Crop failed.).
Chantenay, Half Long Scarlet. The popular sort for bunching. This is recognized everywhere as one of the best bunching varieties, and is popular with all growers. It is used largely in frames where the small tops allow close planting. In the open ground it has long been a standard sort. It is broadest at the shoulder, and tapers towards the base, running quickly to a point.
Coreless, Henderson's. A long, smooth variety of excellent quality. (Crop failure).
Danvers, Henderson's Selected. Our idea of a good Danvers Carrot is a root about eight inches long, broad at the shoulder, and maintaining a good diameter until near the base, then going quickly to a point. This type is admirably suited to the market. It gives great weight per acre, and is easily dug. (See engraving.).
Early French Forcing. Largely grown for forcing. (Crop failure).
Early Farlet Horn. Early, 3 to 4 inches long, and a favorite for bunching.
Half Long Red, Stump-rooted. A shapely stump-rooted variety, of medium size and one of the best for summer use. The roots are almost cylindrical in shape with blunt round points. The skin is smooth; and the flesh is very sweet and mild in flavor having very little yellow heart or core. This carrot is earlier than any other half long type, and surpasses them all in productiveness. It is also one of the best sorts for frame use. 3.00 85 25 85 3.00 85 3 00 . Witter, Henderson's. The best long rooted Carrot grown, good for pitting over winter; grand color. Grows best on deep soll.
 New York Market, Henderson's. Similar to Danvers, but not so heavy; a good basket carrot and keeps well. A favorite in all eastern markets.
 Long Orange Improved. Our strain of this well-known Carrot is heavy at the shoulder and of great weight. It averages 12 inches in length, and is 3 inches across at the shoulder; it is clear and smooth throughout, and will produce enormous crops per acre.
 Orheart or Guerande. Thick and blunt-rooted, 5 inches long, and of fine quality. One of the best sorts for bunching.
 Rubicon, Half Long Scarlet.
 White and Yellow Belgian. .85 3.00 2525.85 3.00 25 3.00 85 70 2 50 20 25 25 85 $3.00 \\ 3.00$ 85 20 60 2 00 Our stocks of Cauliflower are known and used extensively by the most critical market gardeners in the country. CELERY. EARLY SELF-BLANCHING VARIETIES. These grow quickly, blanch easily, and are especially adapted for fall and early winter use. Silver Self-Blanching, Henderson's. Has the color and blanching quality of the old White Plume, but is more stocky in growth. It makes a most attractive bunch, and .50 excellent (See engraving) Golden Self-Blanching, (See specialities, page 5). Golden Rose, Henderson's. A pink form of Golden Self-Blanching. (Crop failure). Henderson's Perfected White Plume. An old favorite in the self-blanching sorts, the first of the type, still wanted in many sections. 50 SECOND EARLY, LONG-KEEPING AND WINTER VARIETIES. 2.25 60 up well in the bunch. Dwarf White, Henderson's. Solid, crisp, and of fine flavor. Boston Market. Solid green stalks, blanching white; crisp and tender; habit dwarf and robust; a splendid keeper. Giant White Solid. A long-stalked variety, large and solid. New Rose, Henderson's. A splendid variety of exceptionally fine flavor. White Rock. A new variety for winter use, of dwarf and vigorous habit, with large solid heart, most desirable for market use, and rapidly becoming popular. It is best described as a smaller stock of Giant Pascal. Winter Queen. A selection from Henderson's Golden Dwarf. The habit of the plant is dwarf, and it has great vigor. The stalks are medium long, thick, only slightly ribbed, extremely solid, and very crisp. The flavor is delicous when thoroughly blanched. It may be marketed late, at which time its quality will ensure good prices. Celery, to grow for soup greens. Flavoring Celery. (Old Seed). The seed is used to flavor soups, etc. up well in the hunch 70 50 90 . 50 .70

flavor; a few days later than above. *Nott's.Excelsior. This is an extra early dwarf wrinkled Pea, usually ready for table	.45	3.20	12.00
in 40 to 45 days from planting. It grows about 14 inches high. It is of vigorous constitution, and wonderfully productive. The even, regular habit of the plant is also	. 50	3.60	14.00
a great advantage (<i>Sce engraving.</i>). * Premium Gem. 18 inches. A fine dwarf Pea of the Little Gem type, on which it is a great improvement.	.45		12.00
EXTRA EARLY VARIETIES OF MEDIUM HEIGHT. Alaska. 2½ feet. A wonderfully early, smooth, blue Pea; vines slender; pods very dark green, about 3 inches long, well filled with small, smooth, blue-green peas. The earliness, uniformity in ripening and deep color render it a desirable market and			
canning Pea. Ameer. This new variety—often called the "Mammoth Alaska" is rapidly growing in favor among Market Gardeners being planted on an extensive scale on many of the largest truck farms. It resembles Alaska, the vine being more vigorous, a little taller or about 3 feet in height and the pods and peas are fully one-third larger. It is a heavy producer of handsome dark green pods containing from 5 to 7 large blue- green round peas of excellent quality. The crop ripens uniformly about three days	. 40	2.85	11.00
green round peas of excellent quality. The crop ripens uniformly about three days later than Alaska	. 40	2.85	11.00

Our Business was founded by Peter Henderson in 1847 and is now carried Charles Henderson and by his Peter and Howard M. Henderson.

HENDERSON'S TESTED SEEDS FOR MARKET GARDENERS.

Complete List of

VEGETABLE SEEDS.

PEAS. EXTRA EARLY VARIETIES OF MEDIUM HEIGHT-Continued. Henderson's "First of All." Its first important feature is its extreme earliness, ensuring to the trucker the advantage of marketing his produce so much earlier than those who do not grow it. It is also exceedingly productive. The vines are vigorous and dwarf, about 2½ feet in height. Another important feature: the entire crop can be gathered at one picking, and every trucker will realize at once the economy in labor in growing such a pea. Moreover, the stock which we are sending out to-day is superior, con-Ot. such a pea. Moreover, the stock which we are sending out to-day is superior, con-stant selection has enabled us to eliminate every undesirable feature. (See engraving.) Nonpareil *Prosperity, Henderson's (called also Gradus). This grand, wrinkled Marrow Pea rosperity, Henderson's (called also Gradus). This grand, winnkied Marrow Pea-mitroduced into America by us in 1897—has, each year, increased in popular favor and is now indispensable for an early crop. It is quite distinct; no other large-podded sort ripens so early; and at any season, early or late, its quality and appearance insure ready sales. Our stock is a little larger-podded than those ordinarily sold, of great vigor, and free from small pods. When one considers that peas of this superior size and quality are ready for picking only a day or two later than little round-seeded hard-shell "Extra Earlies," one realizes what a valuable acquisition our Prosperity Pea really is, 3 feet (See engraring.) *Thomas Laxton. An extra early, wrinkled Marrow Pea of great merit. It grows about 3 feet high, resembling Prosperity. It is of vigorous, hardy constitution, enabling it to be planted with first earliest, coming in a few days later than the round, hard-shell sorts. It produces a heavy crop of long, straight, square-ended, dark green pods, well filled with 7 to 8 large, rich-flavored deep green wrinkled marrow peas. It is a good reliable pea, uniformly constant type and about as early as Prosperity. SECOND OR MEDIUM EARLY VARIETIES. *Advancer. A heavy cropping second early variety of fine quality, sometimes sold as Dwarf Champion.
 *Abundance. 2½ feet. A deservedly popular variety branching in habit and bearing abundantly roundish pods 3 to 3½ inches long, well filled with wrinkled peas of excellent quality. elsea, Henderson's. 15 in. A dwarf, compact-growing, wrinkled Pea, requiring no rushing; pods contain 8 to 10 good-sized peas of exquisite flavor. Bears enormous crop. Crop failure). excellent quality *Chelsea, Henderson's. 50 45 MAIN CROP OR LATER VARIETIES. *Alderman. One of the very best early main crop peas of the Telephone type. The vigorous, healthy vines grow about 5 feet in height and are very productive of large, long, dark green pods—often over five inches in length—and packed with deep green wrinkled peas of the largest size and of unsurpassed quality. The rich, dark green color is retained for several days, rendering this variety especially desirable for Market Gardeners who ship their products.
 *American Champion, Henderson's. 4½ feet. The largest podded and the best strain of the Telephone type. 50 of the Telephone type..... *Champion of England. 5 feet. A superior stock of this well-known favorite...... 50 *Duke of Albany.
 *Juno. 2½ feet. A dwarf main-crop Pea of superb flavor and vigorous constitution; remarkably prolific. The very best to withstand extreme heat. 50 50 *Potlatch 50 *Telephone. 50PEPPER. Oz. 60 .70 .35 failus (Crop failure). Early Neapolitan. Valuable on account of its extreme earliness. It can be marketed away ahead of any of its class. It is continuously prolific. Fruits 2 inches in diame-ter, and about 4 inches long, tapering from the shoulder. The flesh is solid and extremely mild in flavor. Golden Dawn. A medium sized yellow variety, fleshy and sweet. Large Bell, or Bull Nose. A large, hot, bright red variety; a favorite for pickling and "mangoes" when green. 35 35 .35 Long Red Cayenne. Slim, 4 inch pods, very hot, used largely in pickles..... .35 Red Chili. Small bright red peppers, very hot and pungent, and generally used for making Pepper Sauce; very prolific. 35 Red Cluster. Dwarf compact plants, upright in clusters; red and pungent Dwarf compact plants, bearing enormous crop. Small, thin pods borne 35 **Ruby King.** One of the most attractive peppers in cultivation. Our stock is grown from an early ripening strain and may be relied on to produce a good crop of large, well-shaped, fleshy peppers. 40 Sweet Mountain, or Mammoth. We have a very stock of this favorite variety. (See engraving)... We have a very fine long-fruited and thick fleshed

RADISH.—Continued.

RADISH.—Continued.		
 EARLY OLIVE AND OVAL SHAPED VARIETIES. French Breakfast. The best of the half-long tap rooted sorts. The length is about twice the diameter. The lower part of the root is white which gradually merges into bright 		
the diameter. The lower part of the root is white which gradually merges into bright scarlet. It is an excellent variety in every respect.	.15	. 45
scarlet. It is an excellent variety in every respect. Half Long Deep Scarlet. Name describes it; an excellent early sort Red Rocket, Henderson's. A long, oval shaped, bright scarlet Radish, mild, sparkling	.15	. 45
white flesh; very small tops. Excellent for forcing	. 20	.60
flavor, very small tops, good for frames. (Crop failure.).		
tip; mild, very small tops, grows very quickly	. 20	. 60
25 days; bright scarlet; flesh white, crisp and mild.	.15	. 45
 Red Rocket, Henderson's. A long, oval shaped, oright scaliet Radish, mild, sparking white flesh; very small tops. Excellent for forcing. White Rocket, Henderson's. Oval shaped; pure waxy-white skin and flesh; mild flavor, very small tops, good for frames. (Crop foilure.). White Tipped Rocket, Henderson's. Long, oval shaped; brilliant scarlet, with white tip; mild, very small tops, grows very quickly. Scarlet, Olive Shaped. An old favorite, half-long, oval shaped variety, maturing in 25 days; bright scarlet; flesh white, crisp and mild. Yellow, Oval Shaped. A second early; oval, but tapering at the base; skin golden-yellow; remains tender and mild for a long time. 	.10	. 35
EARLY LONG VARIETIES. Long Scarlet. The standard bright scarlet with white mild flesh, grows 6 inches in		
Wood's Frame. An improved paler colored selection of Long Scarlet maturing a few	.15	.45
days sooner: a favorite for frame culture	.15	.45
Cincinnati Market. One of the best varieties for early frame use. Long White Vienna, or Lady Finger. Of attractive, tapering shape, pure white, mild	.15	.45
and tender; matures in about 25 days. (See engraving.) Icicle. Extra earlylong white, a favorite in many markets. (Crop failure.)	.15	.45
SUMMER AND AUTUMN VARIETIES. These attain a larger size than the pre-		
ceding, requiring a longer time to form, and more room to grow Giant White Stuttgart. A large white, turnip-shaped summer Radish, very much in		
demand in some markets. It matures in 6 to 8 weeks, though it is usually pulled earlier. Very tender and mild	15	. 55
	.15	.45
tender; ready to use in 30 to 40 days. (See engraving.). Yellow Summer Turnip. A good-sized, round summer Radish; best used young when the quality is solid and fine; outer color, bronzy-yellow	.15	.45
Chartier. A summer Kadish, long, large and handsome; top crimson fading to white at		
tip; flesh white and delicious, remaining long in good condition	.15	.45
 White Strasburg. An early summer Radish, 4 to 5 inches long and tapering, flesh and skin white, solid and fine. Sandwich, Henderson's. The finest medium early summer Radish; half-long and heavy; skin and flesh snow-white; flavor delicate and mild. (Crop failure.) 	. 15	. 55
WINTER VARIETIES. The flesh is so firm and compact in these that they will keep almost all winter if stored in a dry cellar; they mature slowly and need more room to		
celestial, or White Chinese. An extra fine, large white Radish, often growing a foot in		
length; flesh firm, mild and crisp. Rose China Winter. A distinct half-long variety, 4 to 5 inches; skin rosy-red; flesh	.15	.45
white and firm; good keeper. Long Black Spanish. A leading winter variety, one of the best keepers, Roots smooth, 7 to 10 inches long; skin blackish-brown; firm white flesh	. 20	.60
smooth, 7 to 10 inches long; skin blackish-brown; firm white flesh	.15	.45
white, compact and the mildest flavored of this type; good keeper. The skin is de-	15	.45
cidedly black. Round Black Spanish. A popular summer sort, esteemed highly by Connoisseurs	.15 .15	.45
RHUBARB, or PIE PLANT. Spring-sown seed produces plants of good size to		
 pull from the following spring; planting roots saves one year. St. Martin's. A large, red-stalked, compact-growing and immensely productive variety, quality unusually rich and spicy, very early. (Crop failure.)		
SALSIFY, or OYSTER PLANT.		
Mammoth Sandwich Island. A great improvement on the older variety. The roots are longer, thicker, and therefore sell more readily. (See engraving)	.25	.75
SCORZONERA, or BLACK OYSTER PLANT.		
Analysis shows the root to be the most nutritious vegetable grown; although the skin is black the flesh is white, and properly cooked is most delicious	.20	.60
SEA KALE.		
The blanched leaf stalks are eaten boiled as Asparagus, having a fine, agreeable flavor. From seed they will be fit to cut the third year, continuing to bear for 8 or 10 years.		
The roots may be forced in a warm cellar for a winter supply	.25	.75
SORREL. Broad-Leaved French. The best of the Garden Sorrels; large, pale green leaves of mild acid flavor; esteemed as salad, cooked as greens, etc	.15	.45
SPINACH.	 Oz.	1/4 Lb.
(Varieties prefixed * may be sown in the fall for spring crop.) Round-Leaved. A well-known sort, with thick, round, succulent leaves. (See engraving)	.15	.45
*Thick-Leaved, Henderson's. The most largely grown for late fall use and to winter	.10	. 10
broad, hug the ground closely, are slightly crumpled and attractive in color. The plant is large and produces a big crop. Long Season, Henderson's. This sort will remain in salable condition on the field	15	45
Long Season, Henderson's. This sort will remain in salable condition on the field	.15	. 45
colored, the leaves thick, the stems short and fleshy. It does not readily crush down		
in the basket Norfolk, Savoy-Leaved. Sown very early will produce a good spring crop, but suc- ceeds best in the fall. A very fine dark colored stock, with thick crumpled leaves of great	.15	. 45
substance, which hold up well in shipping. Our stock is free from "slick leaved" plants.	.15	. 45
Long-Standing. An excellent compact variety; thick, fleshy, dark green leaves, grows slowly but remains a long time fit to use before going to seed	.15	.45
*Viroflay, Large Round-Leaved. A large, very hardy variety	.15	.45

 PINACH.—Continued. *Hardy Winter, Henderson's. Very useful either sown in spring for early summer use or in the fall for winter use, being very slow to run to seed and very hardy; plant com- up pact-growing, with short-stemmed thick and fleshy rich green leaves. (Crop failure.) 	Oz.	¼ Lb.	Lb.
*Victoria. A low growing plant, with thick dark colored leaves which are much crumpled and of great substance. It is good for either spring or fall sowing and holds up long before going to seed	. 15 . 25	. 4 5 . 75	1.50 2.50
QUASH. SUMMER VARIETIES. Yellow Bush Summer Crookneck. A bush variety, early and prolific; surface deep yellow, densely warted; quality and flavor good. Mammoth Bush Summer Crookneck. This is much larger than the old variety. The fruits are about 24 inches long, very heavily warted, and richly colored. The plant is	. 10	. 35	1.25
White Dush and is very productive.	. 20	. 60	2.00
fine quality, free cropper.	.15	.45	1.50
 white Bush Scalloped. The white Pattypan or Cyming; creamy-white skin; fine quality, free cropper. Long Island White Bush. A greatly improved form of the old White Bush Scalloped. It is equally good in quality and yields a large crop. The plant is true bush. Golden Custard, Henderson's. A large yellow fruited form of White Bush Scalloped. Vegetable Marrow. A favorite English variety, bearing a heavy crop of dull yellow fruits 10 to 15 inches in length by 4 to 5 inches in diameter; flesh before being quite ripe, tender, marrowy and delicious. 	. 15 . 15	. 45 . 45	1.50 1.50
ripe, tender, marrowy and delicious. Cocozelle (Italian vegetable marrow).	. 25 . 20	.75 .60	$\begin{array}{ccc} 2 & 50 \\ 2 & 00 \end{array}$
AUTUMN AND WINTER VARIETIES. Boston Marrow. We have a very good stock of this favorite sort. The skin is orange yellow, the flesh thick and of fine quality. The color is exceptionally fine. It sells readily and is one of the best keepers. (See engraving.).	. 10	. 35	1.25
Early Prolific Marrow. Similar to but an improvement over Boston Marrow; earlier, more productive; exterior color, deep, orange-red; flesh deep, fine grained, dry and sweet. A good keeper.	.15	. 45	1.50
 sweet. A good keeper. Delicata, Henderson's. Produces an enormous crop of fruits 10 inches long, about 4 inches in diameter, of very fine quality. An excellent keeper. Heart o'Gold, Henderson's. Strong-growing, healthy vine, bountiful yielder; large, orange-red fruits, averaging 25 to 35 lbs. each; deep, solid, fine-grained, golden-red flesh, drv and sweet. (Crop failure). 	. 25	75	2.50
 flesh, dry and sweet. (Crop failure). Hubbard. A very fine selection of the old shallow warted type. It has a hard shell, fine color, thick, yellow, fine grained flesh, and is one of the best winter Squashes grown. Large Warted Hubbard. It averages ten per cent. larger than the ordinary sort. 	. 20	. 60	2.00
The skin is harder and it is decidedly darker in color. It is the best keeper of all and will mature a greater number of large fruits than any of its class. Golden Hubbard. Similar to the old Hubbard in growth, form, size and productive- ness. Skin of a rich orange-red, and heavily warted, highly attractive, and of extra	. 20	. 60	2.00
fine quality. Mammoth Chili. The largest of all Squashes, attains great weight; the flesh is rich and	. 20	. 60	2.00
fine flavored	. 25	.75	2.50
midribs are cooked and served like Asparagus. (See engraving).	. 20	.70	2.50
Acme. An old, well-known, early variety, medium in size, smooth, solid and prolific; color, purplish-pink	. 30	1.00	3.50
markets. Our stock is smooth, and has the true, deep shape	. 30	1.00	3.50
is very even in size and shape. Chalks' Early Jewel. A valuable variety for second early and main crop, fruits are of medium size, bright scarlet and heavy. It is a good shipper.	.35	1.25	4.50
crimson Cushion, Henderson's. Fruits of immense size, 1 to 2 ibs. each; smooth, almost seedless and solid as beefsteak; a continuous bearer; color, rich crimson-scarlet;	. 35	1.25	4 .50 7.00
quality superb, either sliced or cooked. Detroit. An early pink variety; fruits smooth and uniform in size; very prolific and of good quality.	. 35	1.25	4.50
June Pink. A selection from Earliana, but has the purple color of Beauty, which is preferred in some markets. It is very early, and crops heavily at the start, making it a very profitable sort. The fruits are smooth, solid, and it is an excellent shipper		1.25	4.50
Dwarf Champion. Of dwarf, stiff, upright growth, scarcely needing support, early and prolific; smooth, medium-sized fruits of pinkish-purple color. Earliana. One of the best sorts for the first crop. It has remarkably good quality and	. 35	1.25	4.50
 though so early is one of the most solid. It is scarlet in color, has a tough skin, and is a fine shipper. (See engraving). Globe. A very excellent variety for the market. It should be picked a little greener than ordinary sorts, to ensure good condition when shipped. The fruits are a little 	. 35	1.25	4.50
longer, than round and very smooth. It ripens evenly all over, is very solid, and one of the best looking varieties grown.	.35	1.25	4.50
 Matchless. One of the best for main-crop, fruits large, smooth and very solid, of a bright red color, bears continuously throughout the season	. 35	1.20	4.00
scarlet; ripens evenly. Freedom. Not the earliest, but ripens a very large crop of round scarlet fruits quite early in the season, and remains long in full fruit. One of the best for greenhouse	35	1.20	4.00
culture Perfection. Almost round fruits; smooth, tough skin of brilliant scarlet; ripens thor-	. 35	1.25	4.50
oughly solid and of rich flavor; attractive for market Ponderosa, Henderson's. Not used for shipping, but of enormous size and remarkable solidity. For local trade where its superb flavor is known, it is invaluable Stone. The plant is very robust, and ripens a remarkably, large crop. The fruits are	. 35 . 50	1.20 1.85	4.00 7.00
slightly flattened but very solid, and of particularly good color. It stands shipping better than most sorts, and is the best of all scarlet varieties for main crop and general use.	. 30	1.00	3.50

New Giant Early Flowering Spencer Sweet Peas.

BLOOM 4 WEEKS EARLIER THAN THE LATE SPENCERS

FLOWER CONTINUOUSLY FOR 4 MONTHS PRODUCING PROFUSELY, IMMENSE, WAVED FLOWERS

"FOURS" PREDOMINATING, ON LONG STEMS.

WILL SUPERSEDE ALL OTHER TYPES OF SWEET PEAS FOR WINTER FLOWERING UNDER GLASS AND FOR OPEN GROUND CULTURE— —FALL OR WINTER SOWN—IN WARM CLIMATES.

The plants of this new race are of strong constitution, vigorous growth, profuse and bloom continuous for about four months, grown under congenial conditions-Grown in the open ground they begin flowering in about 106 days from seed sowing or fully four weeks sooner than late flowering Sweet Peas sown at the same time, and they continue to flower in profusion for fully 4 months. It is predicted by Sweet Pea authorities that this race will supplant all other early and late flowering Sweet Peas for winter flowering under glass, and also for open ground culture in our Southern States—sown preferably in fall or winter. Condensed cultural instructions for both garden culture under northern and southern conditions and for winter flowering under glass are given in Henderson's leaflet "How to Grow Sweet Peas to Perfection" free to customers.

form, and size of flower to King Edward Spencer	.15	.75	Mixed Early Flowering Spencer Sweet Peas		.75

The Giant Waved Spencer or Orchid Flowered Sweet Peas.

STANDARD VARIETIES AND NOVELTIES.

The characteristics of the Spencer Sweet Peas, grown under congenial conditions are: robust growth, the plants attaining a height of from 6 to 10 feet, requiring for full development to be not less than 6 inches apart; a foot apart is better. The flowers are giants among Sweet Peas, measuring 2 to 2½ inches across. They are beautifully formed and daintily waved. Three and often four or five of these queenly blossoms are borne on long, strong stems.

The world-wide popularity of the new race of Giant Waved Spencer Sweet Peas, their sportive tendency and the ease with which they are hybridized, has resulted in the production of a legion of varieties by enthusiasts and growers both in Europe and America. In consequence numbers of varieties under different names have proven to be identical and many others are closely similar. Therefore in our effort to simplify this confusion of names we made a thorough study and comparison of hundreds of varieties grown at our trial grounds the past summer and after the name of such variety we offer is bracketed in italics the synonyms and those "too near alike."

To aid in selecting certain colors, we submit the following key:

Should the name of some old favorite be missing, by referring to its color class a similar and better variety may be selected.

Primrose and ivory. 11-18-65-67 Pale cream-pink. .31-59-60 Deep cream-pink. .13-19-47-55 Lilac-blush. .10-37 Blush-pink. .28-43 Pink. .14-22-35	Carmine	Maroon	 rose on yellow38-58 Striped, etc., red on white3-56 orange on white6-62 maroon on white77 lavender on white34-46

HENDERSON'S "UP-TO-DATE" VARIETIES OF NAMED GLADIOLUS.

This list of named Gladiolus comprises our choice in the fields after studying and comparing the merits of hundreds of varieties, consideration being given to healthy growth, size, form, coloring and substance of flowers, properly spaced and faced on strong, straight, upright spikes, etc. We there-fore believe that this selection of up-to-date named Gladiolus is unsurpassable, containing as it does the best of Childsii, Gandavensis, Groff's, Lemoine's and Hybrid Sections. All old "runout" inferior and "too-near-alike" varieties have been eliminated. A fair sized collection of these modern Gladiolus will afford a continuous succession of delightful surprises to the grower.

NOTE.—The Section or Type to which the varieties belong is indicated by the letters (C) for Childsii, (G) for Gandavensis, (Gf) for Groff's, (H) for Hybrid, (L) for Lemoine's. The earliness or lateness of varieties is indicated by the succeeding numbers, 10, 11, 12, etc. Those marked "10" bloom in ten weeks (67 to 73 days) from bulb planting. Those marked "12" bloom in twelve weeks (81 to 87 days.) Those marked "14" bloom in fourteen weeks (95 to 101 days). Those marked "16" bloom in sixteen weeks (109 to 115 days), etc.

BOOKS FOR THE FLORIST AND MARKET GARDENER For full list of books see retail catalogue. GARDENING FOR PROFIT. HOW THE FARM PAYS.

By PETER HENDERSON. 375 pages, fully illustrated. Price, post-paid, \$1.50 If you wish to grow Vegetables for Sale, read GARDENING FOR PROFIT. The personal success of its author during his long career as a market gardener, and the success of thousands from the time he first made his cultural methods known up to the present day show the popular estimation of the value set upon this great work. While written particularly for the Market Gardener and Trucker, yet it is of equal value for large private gardens. It tells the whole story, from selection and treatment, of soils to marketing the produce; also covers the forcing of vegetables, strawberries, etc.

GARDENING FOR PLEASURE.

By PETER HENDERSON. 404 pages fully illustrated. Price, post-paid, \$1.50. Its scope embraces directions for the culture and propagation of Flowers, Vege-tables and Fruits. It has had a large sale, and gone through several editions, it treats on the Vegetable Garden, Flower Garden, Fruit Garden, Greenhouse, Grapery, Window Garden, Lawn, the Water Garden, etc.

PRACTICAL FLORICULTURE.

By PETER HENDERSON. 325 pages, fully illustrated. Price, post-paid, \$1.50. If you wish to become a Commercial Florist, then of all books you should procure **PRACTICAL FLORICULTURE**. We have any number of compli-mentary letters from people who actually knew nothing of the florists' business, but who followed the instructions in this work and are now "full fledged florists." And although written especially for the Commercial Florist, it is equally valuable to the amateur and all having conservatories, greenhouses, window gardens, etc.

"PICTURESQUE GARDENS." By CHARLES HENDERSON.

Price, "Popular Edition" with Heavy Levant Paper Cover, \$1.00 Postpaid. Price "De Luxe Edition" on heavy plate paper, handsomely bound in cloth, with panel in colors, \$2.00 delivered free in the U.S.

This unique book mirrors the charms of the prettiest parks, lawns and gardens Burope and America. The picturesque and the natural styles are shown in This unique book min. The picturesque and the natural styles are snown in of Europe and America. The picturesque and the natural styles are snown in over three hundred magnificent, photographic illustrations from nature. Many of these views are 5x7 inches, some larger, few smaller; they are grouped and printed in a most artistic manner on heavy paper, with just enough text matter to describe the view and name the plants, vines, trees and shrubs needed to produce a similar effect or design.

By PETER HENDERSON and WM. CROZIER. 400 pages. Profusely illustrated. Price, post-paid, \$2.00.

An acknowledged authority for farmers. Gives practical Methods of Growing Grass, Grain, Root Crops; Fruits, etc., and all about Stock, Parm Machinery, etc. It is written in plain and easy-to-be-understood language. The information given is intended to make the work of the farm pay.

HENDERSON'S HANDBOOK OF PLANTS AND GENERAL HORTICULTURE. By PETER HENDERSON. 654 Pages. Over 700 illustrations. Price, post-paid, \$3.00.

The standard American dictionary of plants, flowering, ornamental, economic, etc., including vegetables and fruits; in fact, a complete work on cultivated plants. Everything is arranged alphabetically and very complete descriptions are given, with full cultural instructions for everything of importance, also a glossary of the technical terms used in describing plants. A monthly calendar of operations for the greenhouse and window garden, flower, fruit and kitchen garden, renders it valuable as a book of reference.

HENDERSON'S BULB CULTURE. 68 pages, profusely illustrated. Price, postpaid, 50c.

This gives the up-to-date methods of treatment for all kinds of Hardy and Tender Winter, Spring, Summer and Autumn FL weine Bulls, Tubers, Cornes, etc.—Bulbs for Gardens and Lawns—Desten Budlace Mixel B rders— Naturalizing—Situations, Soils and Preparation Tuber, on Depth to Plant —Treatment aiter Flowering -Bulls for the Huse and Green and Green and Flowering Bulls in Glasses of Water, etc.—Keeping Dormant Bullss—Hints on Buying and Selecting for Different Purposes, etc.

THE HENDERSON CHILLED PLOW.

THE HENDERSON CHILLED PLOWS are honstly made of best materials, correctly shaped and balanced to do grand work. Easy on both team and plowman, and we are certain they are not surpassed by any other make. The mold is harder than steel, scours like glass in any soil and turns a beautiful furrow. All improvements, including inclining land-side, adjustable beam and wheel. Shin piece removable for sharpening.

The Meeker DISC - SMOOTHING HARROW.

It is a splendid substitute for a rake for garden purposes, or for seeding down. It pulverizes and grades, leaving the ground in as fine a condition as could be possibly done by hand. No market gard-ener or farmer can afford to be without it. The frame is fitted with four sets of rollers, having iron discs. The discs on each set of rollers work between each other. The board in the centre is set at an angle is ad-

between each other. The board in the centre is set at an angle; is ad-justed up and down, and acts as a leveler. The discs grind all lumps, so fine that seed must come up, and mashes small stones below the surface better than any field roller; it levels the ground at the same time, which a field roller does not do.

BALL CELERY BLEACHER.

The home grower and market gardener will find this an ideal system of bleaching celery—handy, neat and just the thing to bleach a few stalks every few

days as wanted. It only takes a week or ten days after putting on to nly takes a week or ten days after putting on these bleachers where your celery will be a beautiful white and all ready for the table. No banking with soil, no hunting up boards, and it produces better results on early celery. The same bleachers can be used over and over again, the same season.

Price of Bleachers, 6x12 inch \$1.60 per 100., 61x13 inches \$1.75 per 100. Mail weight per dozen 2 lbs. The Ball Lightning Celery Handler Spring Brass, \$3.50; mail weight 3 lbs.

Mouldboard, shinpiece and landside are of tem-pered steel; the beam is also of steel and will not bend nor break. The entire design is perfection in shape, turning the furrow clear over, and grass, weeds and manure entirely under; it scours like glass in all soils, and works beautifully in either loam with

Data Solis, and works becautely in ertice Joan while out body, or muck. Price of the "Henderson Perfect" Steel Plow, with a chilled carbonate share, regular two-horse size, cuts 5 to 8 inches deep by 10 to 15 inches wide, plain, \$19,50; with wheel, \$21.50; with wheel and jointer, \$24.00.

A Spike-Tooth Harrow with Lever Up. A Smoothing

A Spike-Tooth Harrow with Lever Up. A Smoothing Harrow with Lever Down. The teeth can be instantly set at any angle from a forward pitch to straight up and down or slanting backward, the lever-catch holding them securely in the desired position. Prices, No. A, 1-horse 1 section, 25 teeth, cuts 4 ft., \$13.50. No. B, 1 horse, 1 section, 30 teeth, 5 ft. cut, \$14.50. No. C, 2-horse, 2 section, 50 teeth, cuts 8 ft., \$27.00. No. D, 2 horse, 2 sec-tions, 60 teeth, 10 ft. cut, \$29.00.

THE McWHORTER Man-Power Fertilizer Distributor.

For Furrow Work, Side Top-Dressing or Broadcasting.

By its use garden crops may be stimulated into rapid growth, in-creased size and early maturity. Any com-mercial fertilizer can be applied from 3 pounds to 40 pounds per 100 yards of row. It will distribute broadcast or in furrows or between in furrows or between rows, or both sides of one, two, three or four rows, according to their distance apart, at one operation. Weight 61 lbs. Price, \$14.50.

EDDY POTATO COVERER AND HILLER. Adapted for Covering and Hilling all rowed crops as fast as a team can walk. It will not only cover the seed, but hill up both sides of the row at one operation, throwing up much or little earth as desired, according to the angles at which the discs are set. The discs ar adjustable on the frame for a wide or narrow row. Price \$16.00. Whiffletrees and neck yoke, extra \$4.00. EDDY POTATO COVERER A NOR AND HILLER

HENDERSON'S GOLD MEDAL SUB-SOIL PLOW

By following the plow with a sub-soil plow the earth can be broken to a depth of from 15 to 20 inches, giving roots a wider range ist foot, so plants are hardly affected by excessive drought or a wet easily breaks the hard pan and pulverizes it with ut bringing any to the surface. The one-horse plow will reach to a depth equal to the height of its standard-15 to 16 inches—and the two-horse plow to the depth of 20 inches. Prices for one-horse, with wheel and draft rod, \$11.00; for two-horse, with wheel and draft rod, \$15.00. Extra shares 1 horse, 60c.; 2 horse, 90c. 2 horse, 90c.

"PLANET, JR." No. 8 ALL-STEEL HORSE HOE & CULTIVATOR.

Cultivates, Hoes, Furrows, Covers, Hills.

Cultivates, Hoes, Furrows, Covers, Hills. This grand implement is without a peer as a labor saver. It is no ordinary, heavy, clumsy, cultivator but made scientifically correct and entirely of steel. The patent frame is extra long and high, the hollow standards are remarkably strong and high. The teeth, hoes, etc., are of the finest quality of case-hardened, polished steel, and correctly shaped and curved. The cultivator, teeth can be set to any pitch; the hoe standards can be swivelled to any angle, or entirely around, to throw much or little soli either to or from the plants. The lever wheel instantly regulates the depth and locks. The lever expander widens or narrows the implement to work in uneven rows. The handles can be quickly set to either side, and the height can be changed to suit the operator. Weight. 22 lbs. Price, Planet, Jr.

Improved STEEL WING MARKER. For Potato Ground and Row Crops.

The long runners make a very true and even mark which cannot be thrown out by stiff sod or stones, a difficulty with markers having short teeth. It can be adjusted to width and depth, as desired. The wearing parts of the runners are chilled iron, the wings are steel, bolted on and easily replaced when worn. The frame is oak. **Price**, for two horses— three runners, gauge, pole and seat, \$19.00.

RAPP'S HAND SEED SOWER. For Frame and Hot Bed Sowings.

Sows all kinds of seeds not larger that signs, seed, thin or thick as set, a line that set set than hand, and it sows end where the set set of backwards; conseque the this provides the furrow and pulled back in the next, and brass covered drum holds the next, and drops through holes in a lass is where a shifted to make the opening larger, \$3.50.

Prices of Implements, Tools and Appliances are subject to change without notice.

the age. They not only make the care of all rowed crops a pleasure, but enable a man to care for five times the area that can be done by "the man with the (other) hoe."

IMPLEMENTS FOR APPLYING INSECTICIDES and FUNGICIDES.

" HENDERSON " SPRAYING PUMP.

HENDERSON'S 'FRUITALL" SPRAYING OUTFIT.

A simple, high-grade,up-to-date pump. All working parts of brass. It can be mounted on or removed from barrel by two thumb screws. Air-chamber of large capacity. A long, adjustable handle. It is low down and within

the barrel offering no obstruction to limbs, and is not topheavy. The pump is large, but easily operated by a single per-

son. The agitator is mechanical in action. An efficient and satisfactory

"Henderson" Outfit "A" Pump with one lead 10 feet. 1/2-inch discharge hose with "Vermorel" Spray Nozzle and Agitator, \$14.00, or with barrel, \$18.00.

Iron Extension Pipe, 8 feet, with stopcock (for tree spraying), \$2.65 extra.

"HENDERSON" HAND BUCKET PUMP.

PUMP. This is the best and most durable portable hand pump. Working parts of solid brass; large air-chamber; is double-acting, throwing a continuous stream, either solid or in a fine spray, as desired; very light and easily carried, and works from any bucket or tub. Just the thing for throwing liquid insecticides and fun-gicides on low trees, shrubs, plants, etc., and by altering the nozzle it can be used for wash-ing carriages, windows, etc. **Price**, \$2.52, or, with extra 7 feet section of hose and pole con-nection for tree spraying, \$6.50.

THE ASBESTOS TORCH.

Attach the torch to the end of a pole of suitable length; saturate with kerosene oil, light and hold under the caterpillars' nests and pass quickly along the branches and around the trunk of the tree where the insects lodge. The heat instantly destroys the insects and will in o way injure the tree. **Price**, 40c. each. (Mail weight 1 lb.)

"SUCCESS" KNAPSACK SPRAYER. A Knapsack Bucket and Sprayer Combined.

For applying fungicides and insecticides in a mist-like spray. This sprayer may be used either as a knapsack or bucket sprayer. Price, complete, \$23.50.

AUTO COMPRESSED AIR SPRAYER.

AUTO COMPRESSED AIR SPRAYER. One of the best spraying contrivances on the market and the standard of all compressed air sprayers. Can be used in every variety of spraying. Suitable for all garden work, five acres of field crops, a limited number of trees any size, also will handle whitewash and dis-infectants in the Poultry house. Capacity hadue or shoulder strap. The pump is of heavy brass, large diameter. Two or three pumpings will empty the tank under high pressure. There are no screw connections in the construction of this machine and there are no parts likely to require renewing except in the ordinary course of long service. Made with tank of either brass or galvanized iron further the strate of the strate of the strate of the strate of the with Auto-pop Nozle No. 1.

FERTILIZERS.

Prices are subject to change without notice.

HENDERSON'S SUPERIOR FERTILIZER

FOR HOUSE PLANTS.

A safe, clean and high grade fertilizer, free from disagreeable odor, prepared especially for feeding plants grown in pots. It is a wonderful invigorator, producing luxuriant, healthy growth, foliage of rich texture and larger and more brilliant flowers.

It contains in a highly concentrated form all of the ingredients of plant food essential to the highest development of plants and flowers. It is very soluble and is readily assimilated, so that marked improvement is usually noticed in ten days' time. It is fine and dry, clean and easy to apply, either sprinkled over the surface of the soil as a top dressing, or dissolved in water (*stirring well*). Detailed directions on each package.

PRICE, 12 oz. package, sufficient for 25 ordinary sized plants for one year, 25c. (mail weight 1 lb.)

HENDERSON'S GARDEN FERTILIZER FOR VEGETABLES AND FLOWERS.

Strictly high grade, highly concentrated, fine, dry and free from objectionable odor containing all the elements needed by vegetable and flowers for their guick growth, early maturing and perfect development. The ingredients are quickly soluble and immediately commence to feed the plants, stimulating them into healthy, luxuriant growth, and it continues to feed them until the end of the season.

Easily applied, either before or after planting, by sprinkling over the surface of the soil and raking in: or it can be mixed with water (*stirring well*) and applied as a liquid manure. If something especially fine in vegetables and flowers is desired, two or three additional applications, made at intervals, will produce magnificent results. A 5-b package is sufficient for a space 15 x 20 for one application, or 500 to 600 lbs per acre. Instructions on each package.

Price, 100 lb. bag, \$4.50; per ton of 2000 lbs. \$80.00.

THE HENDERSON LAWN ENRICHER.

ODORLESS-QUICK ACTING.

For New and Old Lawns, Tennis Courts, Putting Greens, etc., Quickly induces a Luxuriant Rich Green Growth.

The constant mowing of grass, and removal of clippings also removes a proportion of digested plant food. Therefore if the luxuriance of a lawn is to be maintained, it must be top dressed, at least once a year, with suitable fertilizer. The Henderson Lawn Enricher is a clean and odorless lawn dressing which never fails in inducing a rapid and rich green growth. It should be sown broadcast in the spring or fall, and a remarkable improvement will soon be observed. If applied during the summer use half of the quantity and during rainy weather or water in thoroughly with a hose. The use of "Henderson Lawn Enricher" entirely does away with the old practice of top-dressing lawns with stable manure so objectionable on account of unsightliness, disagreeable odors, so often full of weed seeds.

Quantity Required.—For forming a new lawn a 10-pound package is sufficient to go over an area of 300 square feet, or 1000 to 1500 pounds per acre, or a smaller quantity for renovating an old lawn. A poly broadcast with machine or by hand as evenly as possible on a quiel day and preferably just before rain. If applied during the summer use half the quantity and during rainy weather or water in thoroughly with a hose.

Prices-100 lb., \$4.00; per ton of 2000 lbs., \$70.00.

RAW BONE MEAL. This is ground fine, decomposes more rapidly in the soil than the coarser grades, and is therefore more quickly beneficial.

Quantity Required. For lawns pasture and mowing lands, ½ to 1 ton per acre. For irrees and vines, 2 to 4 quarts each. For field and garden crops, ½ to 1 ton broadcast and harrowed in. For rose beds, pot plants, etc., one part to about fifty of soil. Price, 100 lb. bag, \$4.25; per ton of 2,000 lbs \$75.00.

VARIOUS FERTILIZERS.

Strictly high grade—only the best ingredients are used. Soluble and easily assimilated by the crops. Full description and analyses mailed free on request.

INSECTICIDES AND FUNGICIDES.

Prices are subject to change without notice.

Powders and Soaps (those offered by the pound)—non poisonous—can be sent by Parcel Post if sufficient is added to the prices to pay postage (See page 64). Fluids (those offered by the quart, etc.), and poisonous powders are not mailable.

- **APHINE.** It is a combination of oils combined with nicotine in a readily soluble form which can be easily diluted with water and applied as a spray, wash or dipping solution. It kills all insects, does not affect the most tender plants. Price, 1 gill, 25c.; ½ pint, 40c.; pint, 65c.; quart, \$1.00; gallon, \$2.50
- **APHIS PUNK.** A wood fiber paper saturated with refined pure nicotine. Price, 12 sheet can, 60c.; case of 12 cans, \$6.50.
- ARSENATE OF LEAD. (paste form) A poison rapidly taking the place of Paris green. Price, 1 lb., 40c.; 5 lbs., \$1.75; 12½ lbs., \$3.50; 25 lbs., \$6.50; 100 lbs., \$24.00.
- **ARSENATE OF LEAD.** Powdered. May be used either as a dust, diluted with plaster or as a liquid spray. Price, 1 lb., 60c.; 5 lbs., \$2.75; 10 lbs., \$5.25; 25 lbs., \$12.00.
- "BLACK LEAF 40." An effective insecticide for sucking insects such as plant lice, aphis, red spider, leaf hopper, thrip, etc. Sprayed on dilute 2 teaspoonful to a gallon of water. It also forms a splendid combined spray for both insects and fungus with Bordeaux. Price, 1-oz. bottle, 25c.; 3-lb. tin, 75c.; 2-lb. tin, \$2.50; 10 lb. can, \$10.75.
- BORDEAUX—ARSENATE OF LEAD. A combination in proper proportions of these standard insecticide and fungicide remedies, thus killing insects and eliminating fungus plant diseases at one spraying and accomplishing the objects in half the time required to spray on separately. Quantity required, 1 to 2 lbs. in 10 gallons water. Price, 1 lb., 35c.; 5 lbs., \$1.50; 10 lbs., \$2.75; 25 lbs., \$6.00; 50 lbs., \$11.00; 100-lb. keg, \$21.00.
- BORDEAUX POWDERED. Requires 5 to 10 lbs. for 50 gallons of spray. Price, 1 lb. 45c; 5 lb., 2.00; 10 lbs., \$3.50.
- BORDEAUX MIXTURE. One gallon makes 50 gallons of spray. An indispensible fungicide. Price 1 pint, 30c.; 1 quart, 50c.; 1 gallon, \$1.25; 5-gallons, \$5.00.
- **BUG DEATH.** Is a non-poisonous, insect killing powder. Price, 20c. 1b.; 3 lbs., 45c.; 5 lbs., 60c.; 12½ lbs., \$1.35; 100 lbs., \$9.25.
- COPPER SOLUTION, AMMONIATED. A Fungicide leaving no limy sediment. One quart is for 25 gallons of spray. Price, 1 quart, 90c.; 1 gallon, \$2.75.
- FISH OIL SOAP. Makes an excellent wash for bark. Price, 25c. per lb.; 5 lbs., \$1.00; 25 lbs., \$4.00.
- FORMALDEHYDE is a comparatively non-poisonous microbicide and antiseptic, etc. The dilution for most purposes is 1 lb. (1 pint) Formaldehyde to 15 or 20 gallons of water. Price (40 Volume %), 1 lb. bottle, 50c.; 5 lb. bottle, at 45c. lb.; 10 lb. bottle, at 40c. lb.; 50 lb. demijohn, at 32c. lb.; 132 lb. carboy, at 28c.
- FUNGINE. An effective sulphurated remedy for mildew, rust and other blights. A spraying material which does not stain the foliage. Prices, half pint, 40c.; pint, 65c.; quart, \$1.00; gallon, \$3.50.
- **KEROSENE MISCIBLE OIL.** Better than Kerosene Emulsion and mixes easier. Price, pint 30c.; quart, 50c.; gallon, \$1.25; 5 gallons, \$5.00.
- LEMON OIL. For all insects and soft scales. ½ pint, 30c.; 1 pint, 50c.; quart, 90c.; ½ gal., \$1.50; 1 gal., \$2.50.
- LIME, SULPHUR SOLUTION. A liquid compound for all scale insects on trees and shrubs as can be treated in winter. Price, quart can, 45c.; gallon, 90c.; 5 gallons, \$3.35; barrel of 50 gallons, \$15.00.
- NIKOTEEN. An extract of tobacco for fumigating greenhouses. Price, 1 lb. bottle, \$1.50; 1¹/₃ oz. bottle, 40c.; ¹/₂ lb., 85c.; 4 lb., \$5.00; 8 lb., \$10.00.
- NICO-FUME. A tobacco paper, strongly saturated with pure nicotine. It comes in strips, which, suspended and lighted, is one of the best, easiest, simplest and least injurious methods of fumigating. One sheet is sufficient for two thousand cubic feet. Price, air tight cans of two dozen sheets, \$5c.; 1 gross sheets, \$4.00; 2 gross sheets, \$7.50.
- **PARIS GREEN.** Price, ½ lb. package, 50c.; 1 lb. package, 90c.; 5 lb. package, \$4.00; 14 lb. bucket, \$10.00.
- SCALECIDE. The best spray for San Jose scale, etc., not poisonous; mixes with cold water, 1 gallon to 20, to be applied fall, winter or spring while the foliage is off. Price, 1 quart, 55c.; 1 gallon can, \$1.35; 5 gallon can, \$5.75; 10 gallon can, \$9.85; 30 gallon barrel, \$22.00; 50 gallon barrel, \$33.00.
- SLUG SHOT. A non-poisonous powder and a popular Insecticide. Price, per keg of 125 lbs, net, \$11.00; per barrel of 250 lbs. net \$20.00; for 10 lb. package, 95c.; 5 lb. package, 50c.; in tin canister, with perforated top for applying 35c. each. (mail weight 2 lb. each.)
- SCOTCH SOFT COAL SOOT. This prevents insects in soil and also acts as a fertilizer. Price 50 lb. bag, \$2.75; 100 lb. bag, \$5.00.
- SULPHUR, FLOWERS OF. Price, 15c. per lb.; 10 lbs, 90c.; 25 lbs. and over, at 8c. per lb.
- TOBACCO DUST, Fine. For green and black aphis, Price, 15c. per lb.; 5 lbs. 50c.; 10 lbs, 80c.; 25 lb. bag, \$1.25, 50 lb. bag, \$2.00; \$3.50 per 100 lb. bag.
- TOBACCO POWDER FUMIGATING. Extra strong Havana Tobacco Dust for fumigating. Price, 25 lb. bag, \$2.00; 50 lb. bag, \$3.50; 100 lb. bag, \$6.00.
- TOBACCO STEMS. For fumigating greenhouses, etc. Price, 100 lbs., \$1.75; per ton, \$30.00.
- TREE TANGLEFOOT. No crawling insect can pass a band of tree tanglefoot. Apply early in the spring—before the caterpillars commence to crawl—and again in the fall if troubled with the fall Canker worm. One pound for a sixfoot band 4 inches wide, $\frac{1}{2}$ inch thick. Prices, 1 lb. can, 35c.; 3 lb. can, \$1.00; 10 lb. can, \$3.00; 20 lb. can, \$5.50; 25 lb. can, \$6.75.
- VERMIE. A soil vermicide and sterilizer. Price, gill 25c.; half pint, 40c.; pint 65c.; quart, \$1.00; gallon, \$3.00.

PURCHASERS PAY EXPRESS, FREIGHT OR PARCEL POST CHARGES ON FERTILIZERS, INSECTICIDES AND FUNGICIDES.

LAWNS AT FAR HILLS, N. J. MADE WITH THE HENDERSON LAWN GRASS SEED

HENDERSON LAWN CRASS AWARDED Gold Medals AT THE COLUMBIAN Pan-American AND JAMESTOWN Expositions

"HENDERSON" LAWN GRASS SEED.

_____ THE _____

PRODUCES ENDURING TURF THAT WITHSTANDS SUMMER DROUGHTS.

When sown in the Fall, the best time being the latter part of August or the early part of September the benefits of a warm soil copious rainfall and lessening temperature are to be had. These conditions insure a better germination a higher percentage of the survival of the grasses which start into growth, and a stronger and healthier growth because of these conditions the crop of weeds which always appears in freshly cultivated land will be lighter.

The "Henderson" Lawn Grass Seed is composed of fine-leaved, dwarf Grasses, which produce closely interwoven, deep and elastic turf that maintains from year to year lawns of enduring green. This continuous covering of verdure is obtained by including in the mixture Grasses which arrive at their best during different months of the year, one variety constantly succeeding another. It is impossible to make an enduring lawn by sowing seeds of a single variety which will only grow vigorously during a portion of the year. Kentucky Blue Grass, for instance—which is sometimes recommended for lawns—grows but sparsely during midsummer, besides losing color during hot weather, when it becomes a pale, yellowish green. The smooth and velvety sward produced by The "Hendersons" Lawn Grass Seed remains at all times a dark green, rich and luxuriant. The "Henderson" Lawn Grass is in reality as chean as some other, notwithetending its emeric

The "Henderson" Lawn Grass is in reality as cheap as any other, notwithstanding its superior quality. For while many mixtures on the market weigh only 14 lbs. to the bushel, The "Henderson" Lawn Grass Seed weighs 20 lbs. per measured bushel, being entirely free from chaff and other foreign matter. (See engraving.) Full instructions in every bag and package.

Prices, 25c. quart, 85c. for 4 quarts, \$1.50 peck, \$5.00 bushel of 20 lbs.

HENDERSON'S LAWN GRASS MIXTURES FOR SPECIAL SITUATIONS.

"TERRACE SOD" Lawn Grass Seed for terrace and embankments; 30c. quart; \$1.00 for 4 quarts; \$1.75 peck; \$6.00 bushel of 20 pounds.

"SHADY NOOK" Lawn Grass Seed for shady places; 30c. quart; \$1.00 for 4 quarts; \$1.75 peck; \$6.00 bushel of 20 pounds.

"SUNNY SOUTH" Lawn Grass Seed for Southern States; 30c. quart; \$1.00 for 4 quarts; \$1.75 peck; \$6.00 bushel of 20 pounds.

"SEA SIDE" Lawn Grass Seed for sandy soil and saline surroundings; 20c. quart; 75c. for 4 quarts; \$1.25 peck; \$4.50 bushel. "CRICKET POLO and BALL GROUND" Grass Seed Mixture, 25c. pound; \$20.00 per 100 pounds. Sow 100 to 150 pounds per acre.

"PUTTING GREEN" Grass Seed Mixture for golf courses, 30c. quart; \$1.00 for 4 quarts; \$1.75 peck; \$6.00 bushel of 25 pounds. Sow 5 to 8 bushels per acre.

"FAIR GREEN" Grass Seed Mixture for golf courses; 25c. pound; \$20.00 per 100 pounds. Sow 100 to 150 pounds per acre.

"TOUGH TURF" Grass Mixture for tennis courts, croquet grounds and bowling greens; 25c. quart; 85c. for 4 quarts; \$1.50 peck; \$5.00 bush. of 20 lbs.

HENDERSON'S TESTED SEEDS ARE SOLD DIRECT TO THE PLANTER ONLY.

Upwards of 20 years ago we made a new departure in our business policy, and discontinued selling to dealers to sell n. This drastic step was taken because we had become convinced that such a measure was necessary in the interests again. of our customers, especially of those who made their living

by growing for the market.

The seeds they plant are actually the foundation of their business, and it is a vital necessity that they should be of the highest quality it is possible to produce.

Our long experience as market gardeners and florists impressed upon us the fact that quality should be supreme, that price was secondary. The jobber in seeds naturally considers price as paramount, hence there is a dangerous tendency to sacrifice quality by cheapening production.

HENDERSON'S TESTED SEEDS.

Seeds are offered by competitors as Henderson's Snowball Cauliflower, Henderson's Succession and Henderson's Charleston Wakefield Cabbage, Henderson's Big Boston Lettuce, Henderson's Easy Blanching Celery, Henderson's White Spine Cucumber, Henderson's Ponderosa Tomato and other varieties of vegetables introduced by us. The name "Henderson" preceding the varietal name would inof dicate that the stock is ours; but such is not the case as we do not sell to dealers. If you want our seeds the only way to get them is to send the order direct to Peter Henderson & Co. and get the seeds in our own bags, with our own label on them.

THREE GENERATIONS OF HENDERSONS.

For several years rumors have been circulated, probably by persons actuated by mal-

ice and devoid for fair busi-ness principles, that that our business had been sold out to a syndi-cate, that there were no longer any Hendersons connected with it.

was to offset these repeated rumors that we inserted the fol-

It was to offset these repeated rumors that we inserted the fol-lowing notice in our annual catalogue for **1914**: "The business founded by PETER HENDERSON is still carried on by his son, Charles Henderson and two grandsons of Peter Henderson, viz.: Peter Henderson, son of Alfred Henderson (deceased), and Howard M. Henderson, son of Charles Henderson, thus insuring its continuance along the lines laid down by its founder. In this country, where quick transitions in business are common, the worth of a house carried successfully into the third generation should inspire confidence. In no other business is this factor more essential. The purchaser of seeds should consider the repu-tation of the house seeking his patronage before buying." We now give the names of the officers of PETER HENDERSON & CO. so as to set at rest these baseless and malicious rumors: CHARLES HENDERSON, President.

CHARLES HENDERSON, President, PETER HENDERSON, President, ALLAN MACKRELL, Secretary, PATRICK O'MARA, Treasurer, HOWARD M. HENDERSON, 2d Vice-President and General Manager. Very sincerely yours, CHARLES HENDERSON, January 1, 1913
